Contents

<i>Foreword</i>	<i>v</i>
<i>Preface</i>	<i>vii</i>

1. Agriculture	1
Definition	1
Importance of Agriculture	2
Scope of Agriculture in India and Tamilnadu	3
Revolutions in Agriculture	4
Land Utilization Statistics (2012-13)	5
Branches of Agriculture	5
Development of Scientific Agriculture in the World and India	8
National Institutions for Agricultural Research	15
Indian Agriculture and Economy	18
Women in Agriculture and Empowerment	21
Questions	23
2. Agricultural Heritage in India	25
Agricultural Heritage in India	25
Chronology of Agricultural Technology Development in India	32
Agriculture in Arthasasthra	39
Agriculture in the Sangam Literature	40
Rainfall Prediction	44
Questions	47

3. Agronomy and Agroclimatic Zones	49
Definitions	49
Scope of Agronomy	49
Dimensions of Agronomy	51
Relation of Agronomy to Other Sciences	52
Role of Agronomist	52
Agro-climatic Zones	53
Agro Ecological Zones of India	61
Questions	63
4. Crops and Cropping Sysem	65
Classification of Crops	65
Crop Adaptation and Distribution	74
Theories Governing Crop Adaptation and Distribution	75
Major Crops of India	75
Factors Governing Choice of Crops and Varieties	80
Cropping Pattern and Cropping Systems	82
Intensive Cropping	83
Crop Rotation - Principles and Advantages	85
Factors Determining the Cropping System of a Locality or Region	87
Factors Determining the Cropping Pattern	88
Cropping Pattern Followed by India	89
Questions	91
5. Factors Affecting Crop Production	93
Internal Factors	93
External (Environmental Factors)	94
Effects of Temperature on Crop Production	97
Questions	108
6. Soils	111
Classification Based on Soil Taxonomy	112
Major Soils of India	112
Questions	118
7. Seasons	121
Agricultural Seasons	121
Characteristics of Seasions	122

Effect of Season on Choice of Crops	124
Questions	124
8. Systems of Farming	125
Comparison of Some Selected Features of Different Farming Systems	126
Sustainable Agriculture	127
Integrated Farming System (IFS)	133
Possible Enterprises	134
Dryland Agriculture	135
Questions	138
9. Tillage and Tilth	141
Definition	141
Characteristics of Good Tilth	141
Objectives of Tillage	142
Types of Tillages	143
Factors Affecting (Intensity and Depth of) the Tillage Operations	146
Depth of Ploughing	147
Modern Concepts in Tillage	148
Tillage Implements	152
Primary Tillage Implements	152
Secondary Tillage Implements	159
Inter Cultural Implements	163
Special Purpose Implements	164
Land Leveling Implements	165
Land Shaping Implemenets	166
Sowing Implements	167
Implements for Wetlands	168
Questions	169
10. Seeds and Sowing.....	171
Importance	171
Characteristics of A Good Quality Seed	171
Seed Treatment	172
Objectives	172
Methods of Seed Treatment	173
Sowing.....	173

Germination	178
Questions	181
11. Plant Population and Crop Geometry	183
Crop Stand Establishment	183
Optimum Plant Population	183
Importance of Plant Population	183
Factors Affecting Plant Population	184
Plant Geometry	186
Inter Cultivation	188
Questions	189
12. Weeds	191
Definition	191
Characteristics of Weeds	191
Harmful Effects of Weeds	191
Beneficial Effects of Weeds	192
Crop Weed Competition	193
Methods of Weed Control	194
Integrated Weed Management	199
Questions	200
13. Irrigation	203
Time of Irrigation	203
Irrigation Methods	204
Surface Method of Irrigation	204
Sub-surface Irrigation	208
Pressurized or Modern Irrigation Systems	210
Water Requirement of Crop	212
Factors Influencing the Water Requirement of Crops	213
Critical of Periods of Water Requirement for Various Crops	214
Questions	216
14. Manures and Fertilizers	219
Classification of Essential Elements	220
Role of Nutrients in Crop Production	221
Nutrient Deficiency Symptoms of Crops	225
Manures	225

Fertilisers	226
Role of Manures and Fertilisers	226
Agronomic Interventions Forenhancing FUE	227
Classification of Manures	229
Classification of Fertilisers	236
Factors Affecting Manures and Fertilizers Use	242
Time of Application of Manures and Fertilizers	244
Method of Application of Manures and Fertilizers	244
Integrated Nutrient Management (INM)	246
Questions	247
15. Harvesting and Post Harvest Technology	249
External Symtoms of Physiological Maturity	250
Harvest Maturity Symptoms	251
Criteria for Harvesting of Crops	251
Methods of Harvesting	252
Post Harvest Processing	254
Post Harvest Technology	255
Questions	256
Selected References	259
Annexures	261
Annexure – I : Units Related to Crop Production	261
Annexure – II : Area (2011-12)	263
Annexure – III : List of Crops: Common and Botanical Names	265
Annexure – IV : List of Major Weeds in the World	270
Annexure – V : Twenty Six Most Common Weeds in Crop Fields of India	271
Annexure – VI : Contribution of Agriculture to National Income	272
Annexure – VII : Food Grains Production in India - A Scenario	273

Understanding the basic principles of agronomy is as much important as that of knowing the latest developments scenario in the field of agriculture. It is strenuous strive to keep pace with the progress of such a vast subject like Agronomy which is in practice throughout the globe.

The book is divided in to 15 chapters.

- Agriculture
- Agriculture Heritage
- Agronomy and Agroclimatic Zones
- Crops and Cropping System
- Factors Affecting Crop Production
- Soils
- Seasons
- Systems of Farming
- Tillage and Tilth
- Seeds and Sowing
- Plant Population and Crop Geometry
- Weeds
- Irrigation
- Manures and Fertilizers
- Harvesting & Post Harvest Technology

2017, xiv+278 page, figures, tables 25cm
